

BRETTFORD

Store & Charge

LAPTOP 10

NEW!

TESTED Fully tested and independently certified to BS EN 60335-1:2002 and A2:2006

Charge up to 10 laptops from a single electrical socket, with ease!

Ease of use

Store and charge up to 10 x laptops from a single wall socket, suitable for up to 17" laptops (model dependant). Features front and rear access doors, with power pack shelves in the rear of the unit providing excellent cable management and easy front access to individual machines.

Wifi

2 additional plug sockets are provided for use with auxiliary equipment, such as wireless router, printer etc. This extra power source is accessed through the grommet hole on the top of the unit.

Future Proof

Features a 12 year guarantee (1 year on electrics), plus utilises the laptop's own plug so can be used with multiple brands of laptop and does not need to be re-configured if you change your laptops.

Security

The all-steel construction and key locking doors offer excellent theft prevention. The lockable rear door offers restricted access to the power sockets and wiring to prevent tampering.

Power Management

Surge protected to prevent damage to the laptops and fully earthed. Fully tested and independently certified to BS EN 60 335-1: 2002 + A2: 2006, ensuring the highest level of electrical/build safety, meeting the latest HSE recommendations

Power pack shelves improve accessibility and cable management
