

Store & Charge

LAPTOP 16

Provides the convenience of a mobile computer classroom
A favourite for those on a limited budget
– with the opportunity to upgrade at a later date

Ease of use

Store and charge up to 16 x laptops from a single wall socket, suitable for up to 17" laptops. Features power pack shelves to prevent heat damage to the laptops internal battery, as well as improving front accessibility

Rear drop down panel provides access to the power sockets and cables for easy set-up/configuration. The panel is lockable with a re-programmable combination padlock to restricted unauthorised access.

Wifi

2 additional plug sockets are provided for use with auxiliary equipment, such as wireless router, printer etc. This extra power source is accessed through the grommet hole on the top of the unit.

Future Proof

Features a 12 year guarantee (1 year on electrics). Plus utilises the laptops own plug so can be used with multiple brands of laptop at once.

Security

The all steel construction and doors lockable with a re-programmable combination padlock offer excellent theft prevention. Security brackets are also available for fixing the trolley to a wall.

Power Management

Surge protected to prevent damage to the laptops and fully earthed. Tested and independently certified to BS EN 60 335–1: 2002 + A2: 2006, ensuring the highest level of electrical/build safety and meeting the latest HSE recommendations.

Code	Dimensions	Compartments
