

# Store & Charge

## LAPTOP 16EPM

Features a built-in electronic power management system to ensure your building circuits will not be effected

Rear access for easy set-up/configuration

Y-leads for improved cable management

### Ease of use

Store and charge up to 16 x laptops from a single wall socket, suitable for up to 17" laptops. Power pack shelves and Y-leads are provided to reduce excess cabling and to provide easy front access to individual machines. The rear drop down panel provides direct access to the Y-leads for easy set-up/configuration.

### Wifi

2 additional power sockets provided are for use with auxiliary equipment, such as wireless router, printer etc.

### Future Proof

Features a 12 year guarantee (1 year on electrics). Plus, utilises the laptops own power pack so it can be used with multiple brands of laptop at once.

### Security

The all steel construction and doors lockable with a re-programmable combination padlock offer excellent theft prevention.

The rear drop down panel is also lockable with a re-programmable combination padlock, providing secure access to the electrics and caballing to prevent tampering. Security brackets are also available for fixing the trolley to a wall.

### Power Management

Surge protected to prevent damage to the laptops and fully earthed. Also features a built-in Electronic Power Management system (EPM) that regulates the amount of current being drawn from the mains supply, preventing the school's circuits being tripped and so minimising classroom disruption.

Fully tested and independently certified to BS EN 60335-1:2002 and A2:2006, ensuring the highest level of electrical/build safety and meeting the latest HSE recommendations.

Code	Dimensions	Compartments
LAP16-17 EPM	900W x 600D x 1020mmH	106W x 441D x 331mmH
