

Midi Mentor™ SmartLine™ E20

Recharging
lockable cabinet
"No laptop
chargers required"

The Midi Mentor SmartLine™ E20 Storage and Recharging cabinet offers Purely just storage and recharging. The E build does not offer the same level of functionality as the S build, however still has the same robust, sturdy, fully welded steel chassis.

The Midi Mentor SmartLine™ E20 has been specifically designed and constructed to meet the demanding use of managing laptop computers within schools, colleges and universities. Each cabinet comes ready assembled being constructed of high grade steel which is fully welded, making it extremely robust and strong.

Each cabinet offers high security locking doors which have recently been further upgraded to combat aggressive laptop theft. The new Enhanced Door Security (EDS) offers:-

- Increased thickness of steel to front doors (minimum 2mm thick)
- Heavy duty and anti-jemmy hinge systems
- Anti-jemmy and cover plates as standard on front doors
- Twin high security locks

Key functions

- Unique ULTRA-SAFE smart recharging technology for up to 20 laptops
- Incorporated power management system that provides power to all laptops immediately they are plugged into cabinet (no other low voltage laptop recharging cabinet does this)
- Compatible with any make and model of laptops by configuration (size permitting)
- Preconfigured low voltage leads/connectors for your make and model of laptop (no need for messy laptop rechargers)
- Charge status indication
- Automatic temperature control (twin fan cooling only when required)
- Various upgrade options available

NB. If you are unsure which cabinet and configuration is best suited to meet your needs then we would be happy to discuss this with you in more detail and provide a free product demonstration.
