

laptops & netbooks safely charged & secured

Available in 5 colours

choose UnoCart™

With restrictive budgets and the requirement for mobile IT in schools increasing, it is a challenge deciding between quality and price when it comes to laptop and netbook charging, storage and security! In an increasingly competitive marketplace, the UnoCart™ is designed to far exceed the abilities of its rivals at a competitive price, incorporating: simultaneous laptop charging, safe power management, twin thermostatically controlled fans and effective cable management.
