01905 342070

Metal Case Strong, sturdy, lightweight and long lasting case

Power Supply Connection 24V DC from a Coomber 1858 to power and recharge your unit. With its internal battery its great to take anywhere without worrying about connecting to mains power

Power On/Off simple soft touch button with blue LED lit when the unit is switched on

Audio line in Socket Use to amplify iPod, iPad Tablets, Laptops etc so turn your tables into a listening centre

8 Headphone sockets for quiet group listening, also prevents ambient noise distractions. The master socket mutes the speakers

Speakers class facing stereo speakers giving clean undistorted sound to a group of students

Balance allows separation of tracks-special CDs have music and spoken words on separate channels

Handle for carrying with comfort and ease

Master Volume WARNING: It is always best practice to turn down the volume prior to connection of headphones

Headset Socket for teacher intercom to students headphones, this allows you to reinforce the learning
